4. Moon Photo Assembled—On August 19th, Dr. Lawrence Rowan described this remarkable high resolution photograph of the surface of the moon to newsmen and scientists at the Jet Propulsion Laboratory in Pasadena, California. The picture was made by assembling 87 framelets taken from the Lunar Orbiter satellite and relayed back to earth.

5. 1966 Oscar Winners—On April 18th, all moviedom applauded these four stars at the Annual Academy presentation ceremony. From the left, Lee Marvin—best actor for "Cat Ballou"; British star Julie Christie—best actress for "Darling"; Shelley Winters—best supporting actress for "A Patch of Blue"; and Martin Balsam—best supporting actor for "A Thousand Clowns".

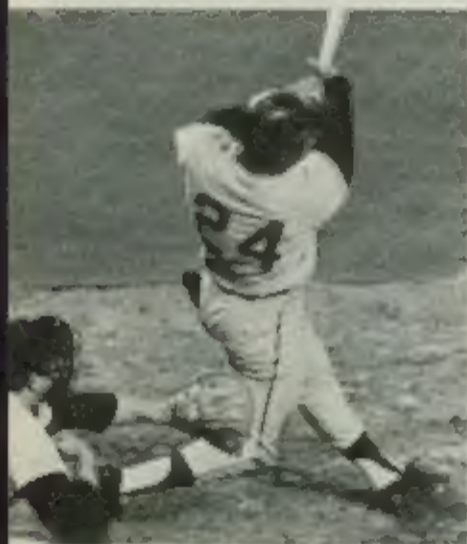

6. Artificial Heart Implant—On April 21st, the medical world was electrified when it learned that Dr. Michael DeBakey (left), Baylor University Medical School heart surgeon, had successfully implanted an artificial heart in Marcel L. DeRudder at Methodist Hospital in Houston, Texas. Mr. DeRudder later died of a ruptured left lung, though it was reported that the implant was a success.
